Acceptance of the Linglong Tyres

24

The tender for the vehicle tyres were called based on the requirement of the MRF Tyres for the fiscal year 2018-2019 and tender was submitted by only one bidders to supply linglong tyres. It was also found that compared to the MRF Tyres, the linglong tyre has resonable rate and brand is also equivalent. The Dzongkhag administration, Paro would like to accept supply to Linglong tyres by the suppliers instead of MRF which is the high price compared to the linglong tyres with the following condition.

1. If found with scars, broken and need maintenance it would be not acceppted
2. As we have only bidders for the supply of tyres for the fiscal year 2018-2019
3. Upon consultation and concern letter it was found it has been using by the various agencies in Bhutan and met the requirement

Therefore, Dzongkhag Administration, Paro has decided to award the the supply of the tyres to the M.s Norbu Dhoedung Enterpreize, Thimphu as per the Brand mentioned by the Suppliers which seems it was has been using for the agencies and as per the concern letter form the agencies.
